EDUCATION

Fisk University, *Bachelor of Science in Computer Science*

Aug 2024 – May 2028

Nashville, Tennessee

- **Relevant Coursework:** Introduction to Computer Science, Calculus I
- **Honors:** W.E.B. Du Bois Honors, Erastus Milo Cravath Presidential Scholarship

SKILLS

Technical Languages: Python (3 years), C++ (1 year), HTML/CSS, JavaScript, SQL

Tools & Frameworks: Git, Github, Figma, Flask, PyCharm, VS Code

PROFESSIONAL EXPERIENCE

Yaba College of Technology, *Apprentice*

Aug 2022 – Sep 2022 | Lagos, Nigeria

- Facilitated laboratory repairs, allowing 5 students to complete their final project by temporarily bypassing damaged and unnecessary circuitry.
- Enabled smooth flow of lecture in a class of 30 students by informally supporting the instructor and providing technical assistance during lectures.

STAIJA (research start-up), *Web Design Intern*

Nov 2023 – May 2024 | Remote

- Constructed website wireframe using Figma based on provided specifications and design requirements
- Mapped out website architecture (with internal and external links) to improve navigation and easy development
- Sourced for templates, icons and other resources to ease the design and development process for the team.

Fisk University, Google In Residence Program (GIR),
Scholar

Aug 2024 – Dec 2024 | Nashville, TN

- Participated in the GIR program led by a Google software developer, learning the basics of Computer Science using Python
- Developed a terminal-based Blackjack game demonstrating proficiency in syntax, control flow and debugging.

COURSES

Drone Programming in Python (training),

Jan 2024 – Feb 2024

University of Lagos Design Studio

- Developed a computer application that could more easily control DJI Tello drones, take picture and video, detect and track faces and objects using OpenCV library
